

1.5. Accuracy Standards

The accuracy of the Linear Bush in inscribed circle diameter, outer diameter, width and eccentricity is indicated in the respective dimensional table in the "THK General Catalog - Product Specifications," provided separately. The accuracy of mode LM in inscribed circle diameter and eccentricity is classified into high grade (no symbol) and precision grade (P). (Accuracy symbol is expressed at the end of the model number.)

The accuracy of clearance-adjustable types (-AJ) and open types (-OP) in inscribed circle diameter and outer diameter indicates the value before division.
